

Modern Slavery Act 2015 Policy Statement

Sheaf Power Limited (WARDPOWER) is committed to driving out all acts of modern day slavery from within our own business and from our supply chain. We acknowledge responsibility to the Modern Slavery Act 2015 and will ensure transparency within our organisation and with our suppliers of goods and services.

Wardpower manufactures gas and diesel Generating Sets up to 3MVA. Due to the nature of our business, our supply chain is varied, however, there are close relationships with suppliers to ensure quality of product.

As part of our due diligence regarding slavery and human trafficking, our supplier assessment process will incorporate measures and reviews undertaken by the supplier themselves. Goods sourced from outside the UK and EU are a rare occurrence to our business but will be closely monitored should the circumstance arise, as the potential for slavery/human trafficking increases.

We will not support, nor deal, with any supplier that is knowingly involved in slavery or human trafficking.

The Company Directors take responsibility for implementing this policy statement and its objectives. The required resources and investment for implementing this policy will put in place to ensure slavery and human trafficking is not taking place within our business or our supply chain.
